# ACOUSTICS

## B CLASS SOUND ABSORPTION

Sound absorption for UNIKA acoustic screens has been tested in a reverberation room and verified by an accredited laboratory. Measurements were performed according to ISO 354 and ISO 11654 standards in one-third octave bands from 100 to 5000 Hz. The results confirmed acoustic qualities for UNIKA screens with **excellent absorption** at middle and higher frequencies.

# TABLE SCREENS

Acoustic comfort, privacy and well-designed spaces are targets that can be achieved for traditional workplaces with creative UNIKA acoustic furniture solutions. Acoustic screens create an innovative, stylish and comfortable oasis. Acoustic solutions are compatible with the entire set of UNIKA furniture to increase their functionality.
